

Your puppy's first-year budget

Plan the first 12 months using your own quotes. Enter \$0 for included items.

Count each cost once. Add totals yourself; this PDF does not calculate them.

Household / puppy

Plan starts

Quote date

Use the full puppy purchase price; do not add a deposit credited toward it again.

Confirm travel and inclusions separately. Put each care cost in B or C, never both.

A. One-time costs

Before arrival and other first-year setup

Full quoted puppy price \$

Travel / delivery + extras \$

Initial supplies / setup \$

One-time training / services \$

Other one-time costs \$

Total A \$

B. Monthly costs

Your monthly average; annualize below

Food / treats \$

Cleanup / refills \$

Grooming / training \$

Insurance premium \$

Other recurring costs \$

Total B \$

C. Annual / irregular costs

Use local quotes; exclude costs already in B.

Vet visits / preventive care \$

Licensing / registration \$

Other irregular costs \$

Total C \$

Your first-year plan

Spending = A + (B x 12) + C

\$

D. Emergency savings reserve

\$

Funding target = spending + D

\$

Reserve is savings set aside.

Quotes / inclusions to confirm (one note per line)

Use actual puppy terms, local care quotes and your own insurance policy details.

Keep guardian arrangements and travel separate. No standard care costs are assumed.
